

We're super excited to take the partnership to the next level with Procore by being the first embedded field productivity app ever! The consistent reaction to the embedded experience is "that's awesome!"

"It saves me time, it's a one stop shop and I can get everything I need" as our friend Josh tells us who's a Superintendent from Ryan Companies.

We know Superintendents are managing a lot every day and one of our primary goals is to help provide peace of mind and allowing them to win back the weekends by providing 24/7 monitoring for productivity, safety and quality assurance with trusted digital information. The embedded experience makes it effortless for them to harness the power of Procore without having to access several applications so they can get back to building.
